

After the launch of our improved Doctor's portal, you will have to register there to see your patients and results. It only requires a few simple steps, and this guide will help you through them.

1. Log in to the nifty portal (nift.geneplanet.com)

Type in your current username and password and click LOG IN.

You will be presented with the registration form for the new website.

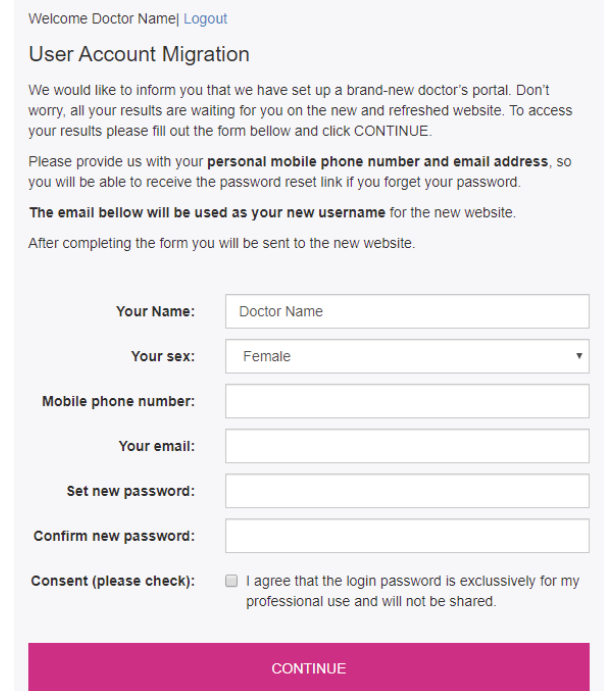

2. Fill out the registration form

Please fill out the registration form. See the explanations for the required fields next to the picture on the right.

Some of the fields will be filled automatically – please check carefully if all the auto-filled information is correct. After clicking CONTINUE, you will be redirected to the refreshed Doctor's portal.

- **Your name:** This will be auto-filled with your name. You can change it if you want.
- **Mobile phone number:** Please provide us with your personal mobile phone number or the business number that only you use.
- **Your email:** Please provide us with an email that only you have access to. This email will be used to send you the information required if you need to reset your password.
- Also, it serves as the username for the improved Doctor's portal.
- **Password:** Set a new password for the improved Doctor's portal and keep it safe.

3. Login in to the new doctor's portal

You will be redirected to the login site for the new portal.

Log in to the new Doctor's portal with the email and password you've set in the previous step.

You will now be able to see your patients and results.
